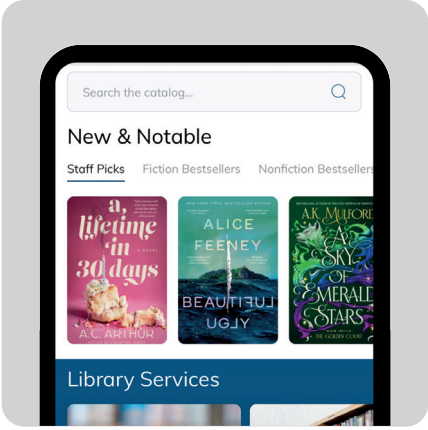
Connect

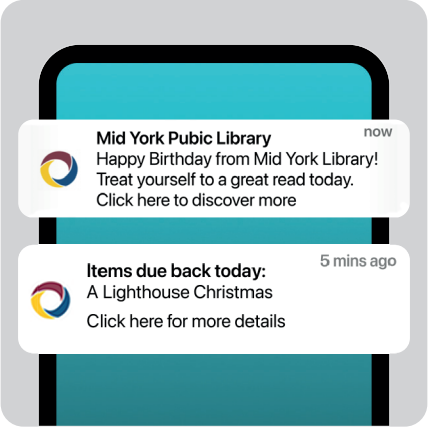
LIBRARY MOBILE APP

Connect is Communico's multi-platform customer app, custom built and designed collaboratively with you, letting customers take your library with them wherever they go.



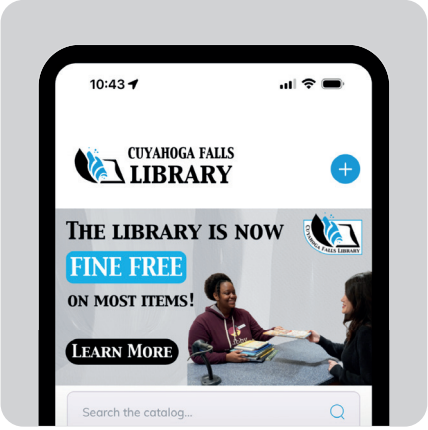
Completely Customizable

Design your app to completely capture your custom branding and promote your amazing resources.



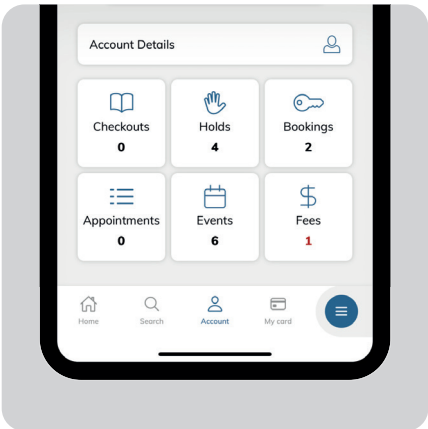
Push Notifications

Automatically send reminders and notifications or push and/or schedule an update to all users on demand.



In-App Messaging

Add custom content anywhere on your home screen to display updates and promote your services.



All-in-One

Access holds, checkouts, events, room reservations, appointments and personal details from the account area.

Multi-Card Login

Login with as many cards as you need making it simple to manage all your household library accounts.

Digital Library Card

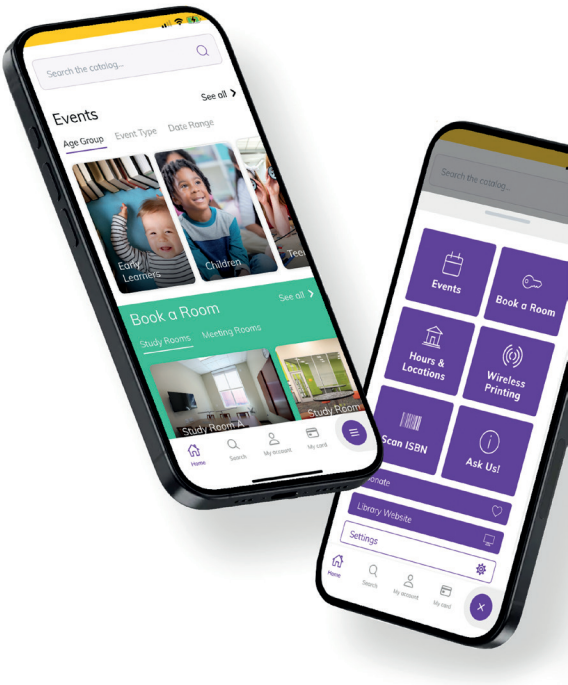
Easily add a library card to your device wallet for quick access.

Connected Content

Connect to popular e-Content providers like hoopla, Libby, Syndetics, Boundless and more.

Communico Integration

Updates made in your Control Panel are reflected in real time within your app.



Self-Checkout

Allow customers to utilize their own device to checkout materials (barcode checkouts only).

Multi-Language Support

Add additional languages to make your app accessible to all library customers.

ILS and e-Content

Connect to 3rd party vendors like your ILS, e-content, e-resources and more for seamless integration.

Fines and Fees

Pay for fines, fees, events and room reservations using a credit card directly from the app.

Custom Carousels

Curate custom carousels featuring recommended titles, e-Content, and library services from your Control Panel.

Branch Information

Display branch details including regular and holiday hours, location details and contact information.

Custom More Menu

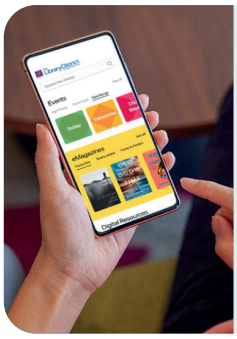
In addition to a custom home screen, completely customize your more menu content to link anywhere.

Consortium Support

Individual profiles within a single consortium app provides each library their own look and feel.

Empower your customers

- Access all the library has to offer
- Easily find and utilize library services
- Manage their account from the palm of their hand



Help staff

- Easily relay important info in a branded app
- Promote and increase usage of e-Content and services
- Provide self-service options for customers
