

Electric Van RFQ – Q&A

Posted Thursday, July 20, 2023

Gjovik Ford

Q: Would it be within acceptable perimeters to submit our bids, for the two transit cargo vans, as vehicle orders?

A: Yes, we would be okay with ordering the vans.

Ron Tirapelli Ford

Q: Are you ok with ordering the vans?

A: Yes, we would be okay with ordering the vans.

Q: Do the vans have to match these specs to every option?

A: We would like to get as close as possible; if that is not practicable, please submit your closest alternative.

Q: Do you want me to submit what I have closest to these builds? (as opposed to ordering)

A: That would also be acceptable. You may submit both of those approaches as choices if you like.

Fair Oaks Ford, Naperville

Q: What options are most important to you?

A: Staff did not list any options that are not considered important. If including all these options is impractical, please submit the closest alternative.

Q: Do you prefer light or dark colors?

A: We would prefer white for the exterior (the vans will be wrapped or have logos applied).

Q: What are some features that you would you like to avoid?

A: None that we are aware of.

Q: Which day of the week is most convenient for a test drive?

A: We are available during business hours during the week.
