Attend

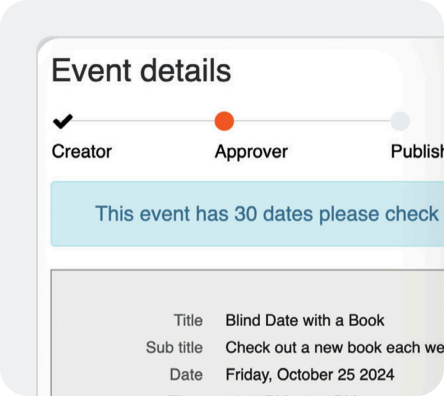

EVENTS & PROGRAM MANAGEMENT

Attend is a customizable calendar to manage all your events, programs and registration. Flexible and feature rich, use Attend to create unique workflows and promote your events without sacrificing your brand look and feel.

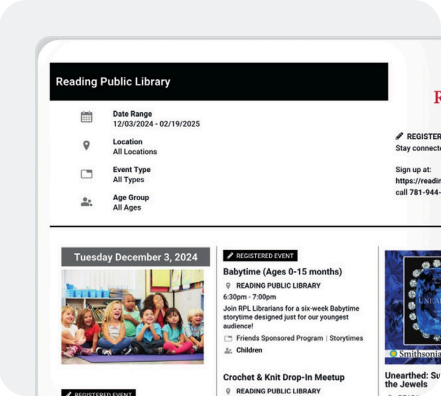

Customizable Calendars

We will build your calendar to match your website exactly without sacrificing your unique style.

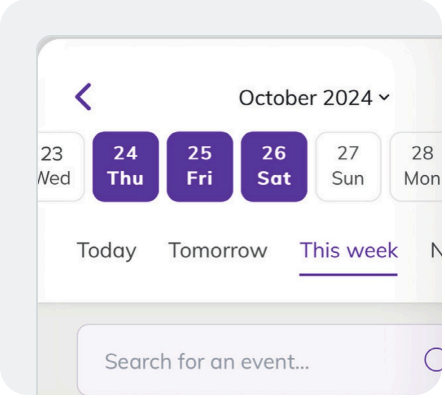

Staff Mediation

Use mediation to control what staff members can create, approve and publish events to your calendar.

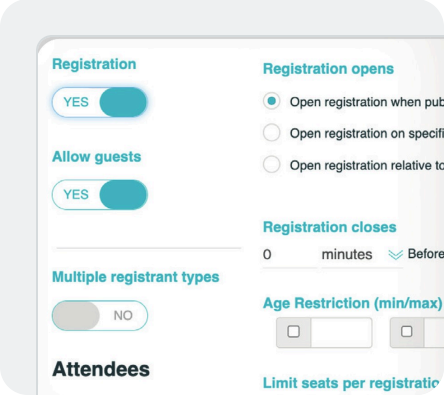

Event Brochure

Customers may use filters to create a custom library branded event brochure catered to their interests.

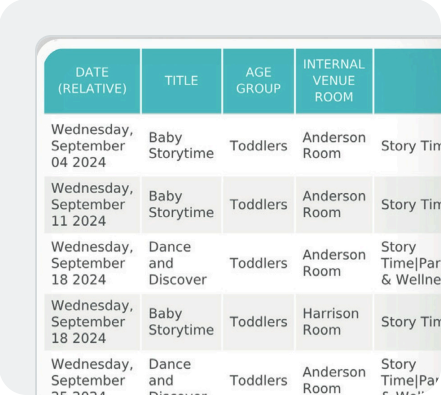

Amazing Integration

Integration with other modules streamlines staff workflows and delivers a cohesive experience for customers.

Flexible Registration

Options available for customization on a per-event basis including custom questions and requiring library cards.

Detailed Reporting

Build granular, fully customizable reports using attendance totals, custom questions, categories and more.

ILS Integration
Seamless integration with your ILS for customer authentication, age verification and card blocks where required.

Event Management
Events can easily be edited, cancelled, rescheduled and unpublished as needed.

Reserve a Room
Seamlessly use Reserve to book a space or asset for your upcoming program during the event creation process.

Registration Options
Customizable series options, automatic waitlist, custom questions and guest registration provide flexibility for all events.

Notifications and Reminders
Customers receive confirmations, change notifications and reminders via email, SMS and/or push notifications.

Displaying Events
Organize the calendar using custom age groups and event types and create unique URLs linking customers to specific events.

Email Registrants
Staff can send one-off emails to registered and/or waitlisted customers directly from the Control Panel.

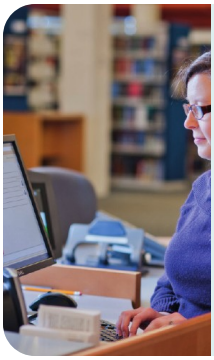

QR Codes
QR codes are automatically generated and easily downloaded to use when promoting your events and programs.

Event Charging
Payment integration makes it easy to charge for an event and allow customers to pay via credit card.

Templates
Use a template for recurring events to save time and maintain consistency on your calendar.

Empower your customers
- Easily view and register for events
- Create brochures tailored to their preferences
- Manage their event registration from wherever they are

Help staff
- Save time with templates and easy event creation
- Customize events while maintaining brand standards
- Increase event attendance
