# Connect

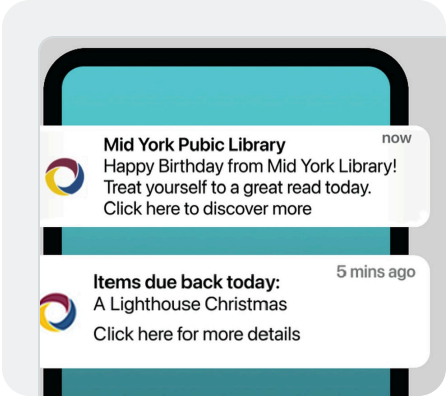

## LIBRARY MOBILE APP

Connect is Communico's multi-platform customer app, custom built and designed collaboratively with you, letting customers take your library with them wherever they go.

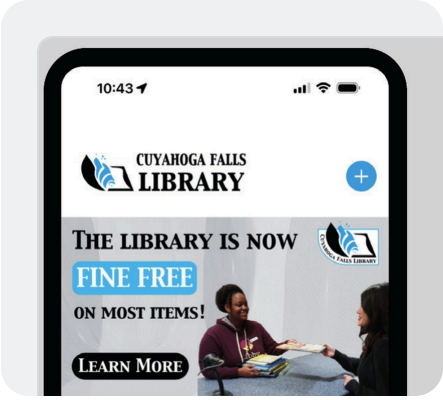

### Completely Customizable

Design your app to completely capture your custom branding and promote your amazing resources.

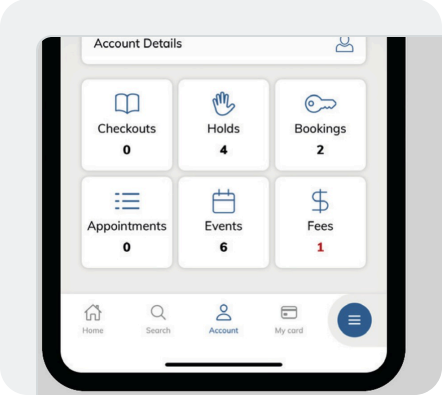

### Push Notifications

Automatically send reminders and notifications or push and/or schedule an update to all users on demand.

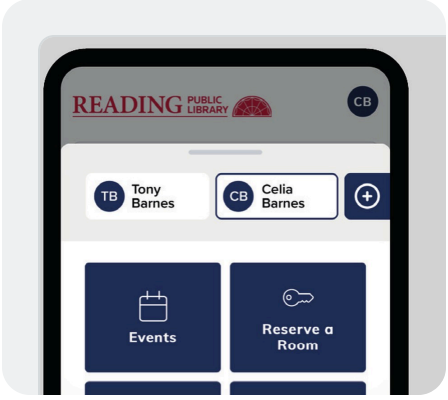

### In-App Messaging

Add custom content anywhere on your home screen to display updates and promote your services.

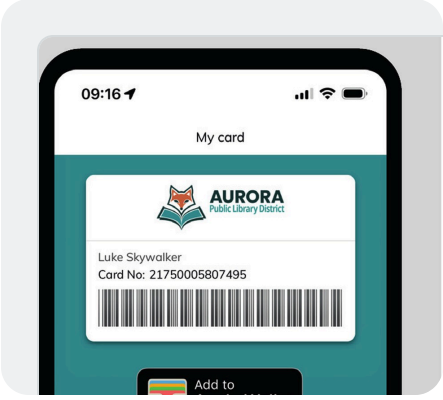

### All-in-One

Access holds, checkouts, events, room reservations, appointments and personal details from the account area.

### Multi-Card Login

Login with as many cards as you need making it simple to manage all your household library accounts.

### Digital Library Card

Easily add a library card to your device wallet for quick access.

## Connected Content
Connect to popular e-Content providers like hoopla, Libby, Syndetics, Boundless and more.

## Communico Integration
Updates made in your Control Panel are reflected in real time within your app.

## Self-Checkout
Allow customers to utilize their own device to checkout materials (barcode checkouts only).

## Multi-Language Support
Add additional languages to make your app accessible to all library customers.

## ILS and e-Content
Connect to 3rd party vendors like your ILS, e-content, e-resources and more for seamless integration.

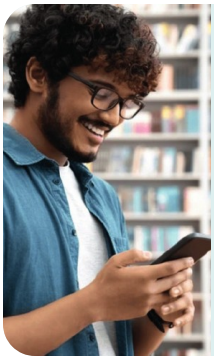

## Fines and Fees
Pay for fines, fees, events and room reservations using a credit card directly from the app.

## Custom Carousels
Curate custom carousels featuring recommended titles, e-Content, and library services from your Control Panel.

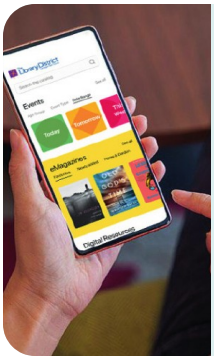

## Branch Information
Display branch details including regular and holiday hours, location details and contact information.

## Custom More Menu
In addition to a custom home screen, completely customize your more menu content to link anywhere.

## Consortium Support
Individual profiles within a single consortium app provides each library their own look and feel.

### Empower your customers
- Access all the library has to offer
- Easily find and utilize library services
- Manage their account from the palm of their hand

### Help staff
- Easily relay important info in a branded app
- Promote and increase usage of e-Content and services
- Provide self-service options for customers
