# Create

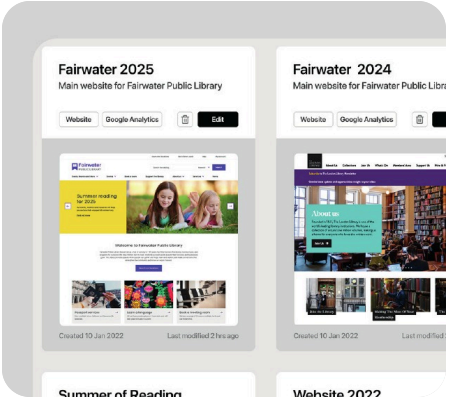

## WEBSITE & CONTENT MANAGEMENT

Create is an intuitive site builder that empowers you to design a stunning, fully customizable website without writing a single line of code.

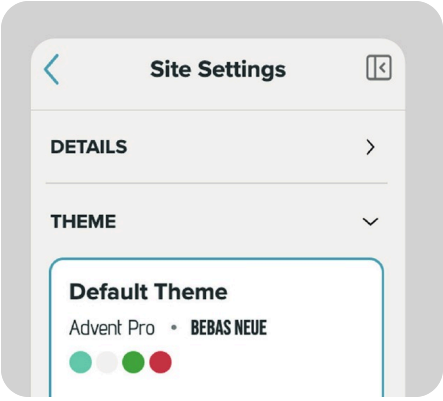

### Drag and Drop

Effortlessly design and customize pages with a user-friendly, intuitive interface.

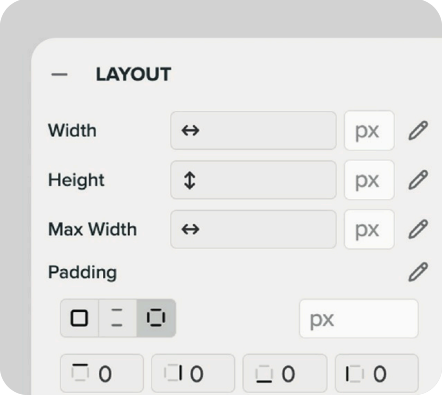

### Designer Templates

Ready-to-use templates for quick, seamless site setup with optimized UI/UX.

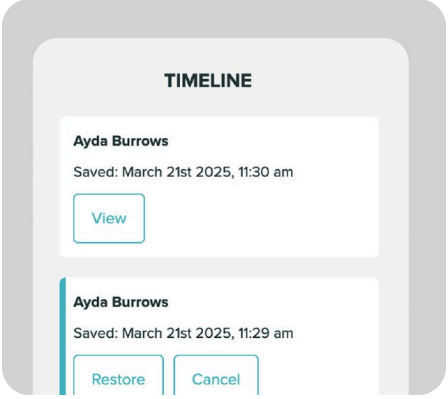

### On-brand Themes

Build beautiful, fully customized pages using your own CSS, colors and fonts.

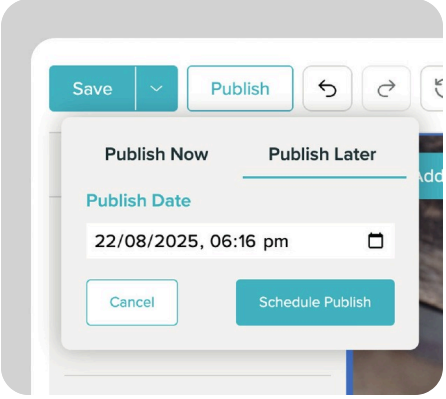

### Custom Designs

Create and customize your own templates to match your unique style and requirements.

### Page Versioning

Easily track changes and revert to previous versions of a page whenever needed.

### Content Scheduling

Set specific dates and times for content to automatically be published to your site.

### Set Permissions
User permissions let you manage who can access, edit and publish pages on your site.

### Built-in SEO
Integrated tools to enhance your site's search engine optimization and increase your library's discoverability.

### 3rd Party Analytics
Integration with tools like Google Analytics to track site performance.

### Custom JavaScript
Add and manage your custom scripts to enhance functionality.

### Page Locking
Pages automatically lock to prevent multiple users from editing the same page simultaneously.

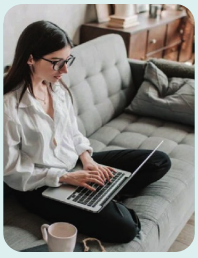

### Ready to Reuse
Reusable content blocks may be saved and repurposed for consistency across your site.

### Social Media
Optimized integration makes it easy to share your content across social media platforms.

### Digital Signatures
Our advanced form builder includes features like digital signature collection and custom questions.

### ADA Compliance
Check your work as you create your site to ensure it meets WCAG 2.1 AA accessibility standards for all users.

### Breakpoints
Define and set specific screen sizes to enhance your responsive designs.

### Empower your customers
- Discover everything your library has to offer
- Access content from any device 24/7
- Keep up to date with library offerings

### Help staff
- Easily build a beautiful website
- Update content on their schedule
- Build stronger engagement with the community
