# Interact

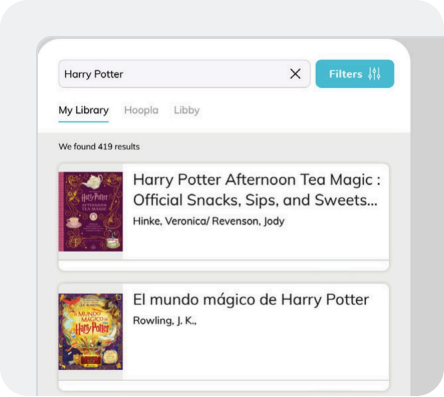

## SELF-SERVICE KIOSKS

Interact from Communico combines your self-check, OPAC, and all your amazing resources into a powerful self-service kiosk. Interact is hardware agnostic allowing you to choose the hardware that best suits your budget and available footprint both inside and outside your library.

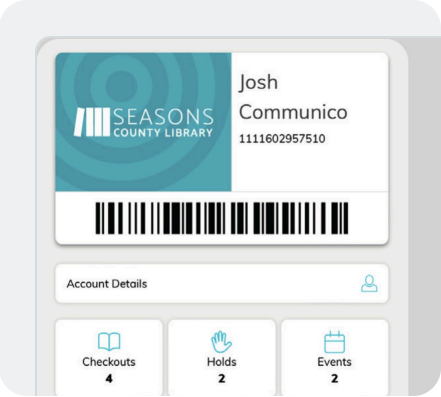

### Self Check

Customers can check in, check out and renew items without staff assistance using an intuitive and sleek interface.

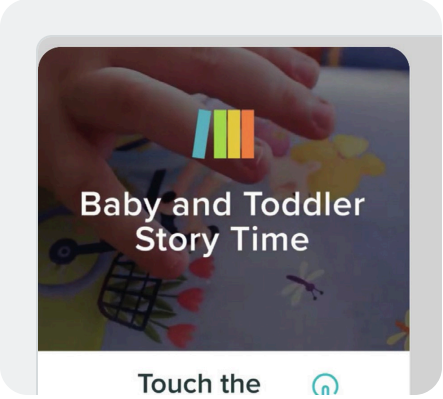

### Browse the Catalog

Use Interact to find item details, availability and place holds on both physical and digital items.

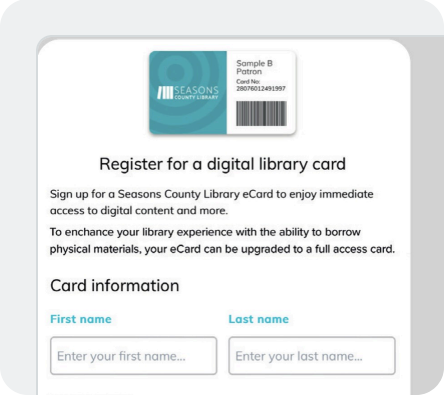

### Customer Accounts

Customers may login to see and manage holds, checkouts, pay fines, view and update account details, and more.

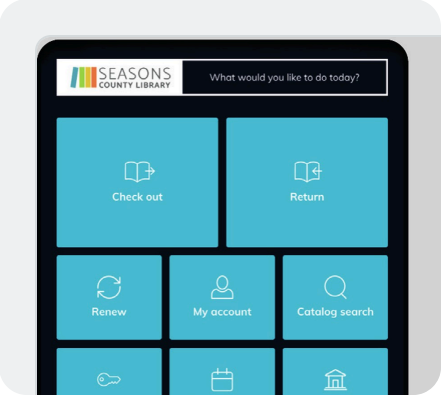

### Digital Signage

Use Interact with Broadcast to turn the kiosk into a beautiful digital sign and marketing opportunity when not in use.

### New Account Sign-Up

Allow customers to create a new account with control over the card type, permissions and expiration dates.

### One-Stop Shop

Promote and manage room reservations, events and appointments.

## Hardware Agnostic

Choose the hardware that best suits your footprint and budget. Interact works with Windows and Android OS and is RFID compatible.

## ILS Integration

Seamless integration with many ILS providers to allow customers to manage their library accounts.

## Multi-Language Support

Add as many languages as you need to help make Interact accessible for all library users. Customers can easily toggle between languages on the Interact home screen.

## Events and Programs

Using Attend, customers can browse and register for library events and programs using an intuitive calendar built for touch.

## Room Reservations

With Reserve, customers easily can check room availability and reserve a space on the spot.

## Appointments

Customers can book time with any person, place or thing using Schedule, our appointment management module.

## Branch Maps

Add branch maps to help customers navigate their way around the branch.

## Use Outside the Library

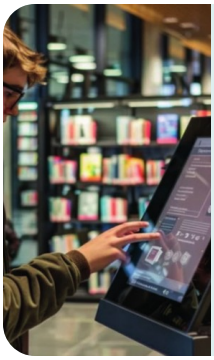

Place Interact kiosks in shopping centers, transport hubs, city halls and around your community to promote and provide access to all your resources 24/7.

## Unique Branding and Styling

Easily maintain your design and marketing standards with your logo, graphics, brand colors, custom backgrounds and button wording.

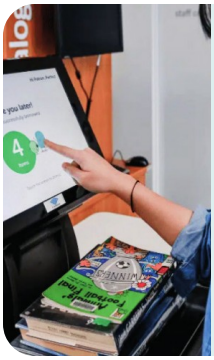

## Digital Content

Seamless integration with digital providers such as hoopla, Libby, Boundless, cloudLibrary, Syndetics Unbound, Content Café and more.

### Empower your customers

- Check out items quickly and easily
- Access the entire library from an intuitive kiosk
- Browse and learn all the services the library has to offer

### Help staff

- Save time by allowing customers to help themselves
- Display important information and market library resources
- Increase usage of library services
