

Petitions

NRS 293.127565 addresses the use of public buildings to gather signatures on petitions. However, the exercise of this right on library property shall not interfere with the right of others to have access to library resources, or with the normal operations of the library. Individuals wishing to solicit signatures for a petition on library property, or property controlled by the library district, shall comply with the following:

- The petitioner must notify the person in charge of the library of the dates and times that petitioners will be seeking signatures.
- The petitioner must give contact information for themselves and affiliated organization, if any, to the person in charge of the library.
- Petitions may not be conducted inside the library. Petitions must be conducted in the area(s) designated by the library district.
- The petitioner shall not block the entrance or exit to the library and must allow people to approach the library on the regular walkways laid out for that purpose.
- The petitioner must agree to move farther from the entrance or from the building, or even to leave the area, if their activity violates the Library Rules of Conduct Policy.
- The petitioner may not impede traffic into or within the library parking lot.

The library does not endorse any political opinion or action that is the subject of a public petition, and petitioners are prohibited from making such a representation.
