

Adult Services Report

August was such a great month! It seemed even busier and better than summer reading.

Trainings:

Mary and I attended Digipalooza in Cleveland. This is a training where we learn ways to improve our digital services to patrons. It was great to connect with other librarians and hear some tips and tricks.

Brittany Leath and I also attended a training in Huntington where we got some great ideas, including the idea of sending different library staff to libraries for tours and ideas. Brittany and I have also been working on our presentation for our conference in Kansas in September. It is an honor to be picked to present.

Programming:

Limberlost had amazing attendance for adult programs. Patrons loved the flower arranging, breakfast prep, and Bingo.

Our book club in Kendallville keeps growing, which is so exciting. We started with two regulars and are up to 15-20.

Our backdrops for checkout have been processed we made a backdrop display where people can stop in to take photos for fall. We will change it out seasonally. This will build awareness for this new collection.

Staffing:

On a sad note, Daleth Rodriguez resigned due to health concerns so we will be posting the one evening a week and one Saturday a month position yet again.
