Screening Clinics

Open Spaces returns!

About our Programs

Baby Time: Drop in to learn, play and enjoy rhymes, stories and songs as well as informal socializing. Some locations start with a seasonal stroller walk.

Grow with Baby: 3rd Monday of the month at Glencoe Baby Time, 1-3 p.m. Parents with their infants can meet with a Registered Nurse & Dietitian from West Elgin Community Health Centre.

Infant Massage: A 5-week program that will give you the tools and information you need to communicate with your baby through loving touch. Registration required.

Open Spaces Outdoor Adventures: Join us as we enjoy free play and adventures in learning in the great outdoors. We will let your child(ren) take the lead in these nature-based programs. Best suited for children 2 to 6 years of age, but children from 0-6 ages welcome. Registration required.

Play & Learn: A play-based learning opportunity for children 0 to 6 years of age and their caregivers. Activities planned by our EarlyON facilitators encourage interaction and inspire play and learning. We also offer a circle time (songs and stories) at the end of program. Drop-in.

Open Play: Drop in to play, learn and connect at River Heights EarlyON Child & Family Centre.

Busy Bees: This program will nurture your child's sense of joy and wonder. Each week we will have a different theme and focus with a teacher-directed activity. Best suited for children 2-6 years of age, but siblings welcome. Registration required.

Ready Set Learn Program: A 4-week program that will provide you and your Kindergarten-bound child with a learning experience that will support a successful school transition. Registration required. Offered offered in late winter-early Spring. **We also have lending kits - call or email for information!**

Kinder Connect: Evening programs offered in late winter-early Spring for Kindergarten-bound children. Meet new friends, participate in fun & engaging activities, and enjoy songs & stories. Ask questions of educators about successfully transitioning to Kindergarten. Early developmental screening also available with trained staff. Registration required.

Zumbini® uses music and movement to support child development for children ages 0-4 years. This is a 6-week program. Registration required.

Little Sensory Seekers: Visit our Sensory Light Space and experience the magic of light sensory play! Light sensory play uses lights, shadows, and transparent materials to stimulate imagination and creativity in child development. These spaces are made available throughout the year in Strathroy and Ilderton and pop-ups in other locations.

Virtual Programs *We offer on occasion virtual special programs and events. We will outline these opportunities in our Monthly Program Calendar.

Bounce Back and Thrive: This program is designed to meet the needs of parents (and those in a parenting role) of children under the age of 8. BBT helps parents gain self-regulation and thinking skills that increase their capacity to provide caring relationships and role model resilience-building skills in daily interactions with their children. Then, it shows parents how to directly introduce basic resiliency skills to children. Registration required.

M.I Friends: This program will support families who have a child struggling with big feelings and worries and who could use some additional support. Self-directed learning through an online portal. Call or email for information.

Early Developmental Screening

Did you know that regular developmental screenings after 1-month of age is encouraged? Our Early Childhood Educator can support you & your child in identifying areas for education or need for follow-up. Have your questions answered regarding topics such as Physical Growth, Social/Emotional Development, Motor Skills, Language Development and more! Call or email for more information.
