

## Home Delivery

---

A PCDL library card, residence and a completed application is required to receive home delivery. Copies of applications are available online, at any branch library or by calling Outreach Services. This free library service is available for all ages.

Outreach librarians will select materials based on your application, and you can also request specific titles. Items are delivered to you on the same delivery day every two weeks.

### **Please Note:**

You are responsible for all library materials checked out to your card. If at any time you will not be home to accept your delivery, it is your responsibility to contact Outreach Services with an alternative destination for your delivery.

## Contact

---

### **Mail Completed Applications:**

Portage County District Library
