Forward

The Author: Jesse Lowe Smith was born in Macon, Illinois, on 23 November 1869, to the Rev. Leonard Francis Smith (1838-1874) and Bridget Ann Lowe Smith (1842-1941). His father's diary for that date: "At 5:30 wife bore me another child, a boy weighing 10 lbs when dressed. Dr. Tobey was the physician..." Jesse's father, Leonard Francis Smith, son of Jesse Smith and his second wife, Sophia Lake Spencer, had married Bridget Ann Lowe, daughter of William Fletcher Lowe and Elsea Aquila, on 10 September 1863. They had six children, Elsie (1864), Kittie Grace (1865-1932), Clarence Bruner (1867-1943), Jesse Lowe, Edith (1873-195?), and Lennie Francis (1874-1976).

Jesse Lowe Smith attended grade school in Macon, Illinois. With a passion for books and nature study, Jesse saw his life as a teacher. He attended the Academy in Benton Harbor, Michigan from 1884-1887, living with his Great Aunt Margaret Crooks. In 1888 he returned to Macon where he taught for three years. Teaching and studying independently as he taught, Jesse, at age 21, qualified for entrance to De Pauw University in September 1891. He completed his education at the University of Chicago from 1892 to 1894.¹ After one year at De Pauw, he returned for one term at Macon, and then, with his mother and sisters, went to Lexington, Illinois where he taught for four years from 1893-1897, followed by five years in Park Ridge, Illinois. In May 1902, Jesse came to Highland Park as principal of the Elm Place School. He was Superintendent of Schools for District 107 at the time of his death on 21 April 1934.²

His diaries reveal Jesse Lowe Smith to be a man of many interests and great influence. He was widely known and respected throughout Illinois as an innovative educator and avid naturalist and in Highland Park as an educational, cultural and civic leader. He inspired the Elm Place School teachers to higher ideals of education and the students to a deeper understanding and appreciation for the world around them. He left a lasting impression on all who knew him in life and continues to inspire many who make his acquaintance through his diaries and his legacy in Highland Park.

Identifications: In his diaries, Jesse frequently refers to members of his family. During his years in Highland Park, Jesse provided a home from his mother and sister, Kittie. They are often referred to in the diaries as M. and K. His brother Clarence Bruner is referred to as Clarence or Clarence B., and Clarence's two sons, Leonard and Clarence, Jr. (Bruner or Junior) are also mentioned. Jesse's sister Edith married Clarence Danforth (Danforth or Clarence D. in the diaries). His sister Lennie married Arthur Enders, and their children, Robert and Ruth Anne, are mentioned in the diaries.

Transcriber's Notes: Every attempt has been made to provide an accurate transcription of the diary entries with respect to spelling, grammar, and punctuation; therefore incorrect or inconsistent (Mr. Smith spelled the same word in different ways at different times) usage is retained without the use of (sic). When words were added above the line, they have been inserted into the text. When words were inadvertently repeated, the second occurrence of the word has been dropped. Margin notes are indicated as such and are placed following the text that they appeared adjacent to in the diary. When words were illegible, brackets have been supplied enclosing a blank space []. Words that could not be deciphered with certainty have been placed in square brackets followed by a question mark [like this?]. Transcriber's notes are indicated by brackets [like this – ed.]. Clippings that were pasted into the diary are described in transcriber's notes, but are not always transcribed.

Aug. 21

Pushed on into gray weather at 9:10 but the day cleared at noon and we had a wonderful sunset.

We were following the Kawishiwi – Isabella route. Crossed several portages – one about a half mile long, a hard pull at the pack sack. Went into camp at noon near fork of No. & So. Kawishiwi. Spread blankets, etc. out to dry for awhile. Lunch. Then stored our stuff and rowed an hour's dist to Fernburg Ranger Station. Landing there, the assistant went with us a mile thru the woods, up the hill considerable of way to lookout station which was a cabin on top of a ninety foot structure. E & the ass't went up while K & I gathered half gal. of huckleberries. Great view out over wilderness watercourses & lakes. Hill is 1865 feet in elev. Lakes on av. 500 ft. lower - - Botanized in boggy places in woods on way back – got drosera, chiogenes, cranberry, kinnikinnik, - - - On way home we took off the line I trailed in the water two pikes weighing about 4 lb. each. We hooked three or four pickerel but threw them away. - - Had fish for supper. Wonderful, speechless sunset. Afterwards, but a little too late, E took me for canoe trip when I took lessons in paddling. We visited some bays fringed by tall sedges & grasses to try to encounter some big game. No success but we startled a young beaver in mid stream who dived down and came up to his great alarm about ten feet from the bow. Another deep dive and he miscalculated again and came up quite close to us on our left & then made off more than precipitately.

Huckleberries with bread & butter was a delight but huckleberries mixed in the batter and coming on the breakfast plate as an ingredient of flapjacks is also a delight - - made one think of strawberry shortcake

[Mr. Smith may have been confused about the dates. The entry which followed the August 21 entry was headed “Aug. 23,” but appears to be for August 22 and is therefore recorded at this date. It is transcribed as follows: - ed.]

Aug. 23.

Lingered awhile to watch the progress of a thunderstorm off to the n.w., then set out once more. Up stream and three or four portages and one rapid we pulled up safely. Then about noon we came to a portage at the mouth of a rather wild gorge. We scouted around in the woods for a while. Then K & I waited on the shore of an inlet & examined fresh work of a beaver. Indeed we saw him across the inlet working over birch & “popple” material recently cut. Alas, my glasses were back in the canoe

We found several amelacher in fruit, lots of pin cherry & of chokecherry. We went back to the canoe & pulled over past the mouth of the gorge & ate lunch in a niche in the woods. Cooked a 6 or so pounder pike hooked on our trawl line as we rowed along. Then K & I shouldered the baggage, climbed up a steep slope to an old roadway & went around to a bridge across the gorge. Here E. joined us with the empty canoe, & shouldering it let the way across the bridge & out to the upper end of the gorge & above the dam set up there. So we went on our way. It was a hot afternoon – At length we reached Gab[r?]o point & put up for the night. Here up from the shore is the cabin of a “government trapper.” He was away, but we went thru the cabin & commented favorably upon his housekeeping.

Another marvellous sunset - & the moon rose across from us and shone down full upon us when we got into our beds spread out on the rocky platform by the water’s edge. Cool in the night & mosquitoes inactive, tho we had a netting framework over heads & shoulders

Thursday, Aug 26.

Left Holland Hotel for Port Arthur at 9:00 A.M. Hotel 1.75; breakfast .80; supper 1.25; Bus, round trip 12.00.

A fine long ride to Port Arthur – 6:15 P.M! Fine day. Breeze. Sat on back seat with a Mr & Mrs Magie & two little daughters of Winnetka Mr. M, a hay fever case, & they were on their way to North Star Camp.

The road is near the lake much of the way and reveals great sweep of water, bold & rugged cliff walls & headlands, alternating with open bays with here & there small rocky islands

I thought it as picturesque as the North Devonshire Coast I saw from the water last year - - - Visited with an “incinerator man,” a young workman native of these parts, one McGuire, now employed in Chic, who was on his way to join wife & child in a vacation near Grand Marais. - - - Burnt land alternated with grown-over cut land, stretches of the latter being very inviting. - - Two different places saw bear cubs chained as pets - -

Beyond Grand Marais saw much red-berried elder along road – had seen none up to this time. Bus let the Winnetka people off a little after noon at a place that looked sunburned and uninviting.

While still six or seven miles from Grand Marais we met the west bound bus & three or four other machines where an accident had just occurred. A Hudson with five passengers had struck gravel at the road edge, run off, & turned upside down. The people had been taken out before we got there and an auto hurried on to G.M. for a doctor. The wreck was complete and the victims “a sight.” Elderly man & wife, their daughter and two children, the daughter a ghastly sight, smeared with blood & dripping at various surface cuts. Wonder that no one was killed, or how they got out from under the jagged glass – I helped the victims into our bus, furnished clean handkerchief to woman worst hurt, etc. We went on into G.M. to Doctor’s house where we unloaded our patients & left them with Doctor & Nurse. Then on to restaurant for dinner. At 3:00 we arrived at Internat’l Boundary at Pigeon River where I registered at American Customs & then went to Canad. Customs where I declared myself & had baggage examined.

We had crossed a number of picturesque streams down in rugged glens, and now we had glimpses of the broader one known as Pigeon R. It was flowing along in a valley dominated by great shaggy ridges with sheer escarpments, probably the Laurentian Highlands

Few passengers left by the time we reached Fort William & there all got out but me Impressive sight – the great elevators, etc., there and at Port Arthur. A great many shabby structures characteristic of frontier towns but newer & attractive buildings dominating.

Went to Mariaggi Hotel. Old fashioned, but given a nice room. Supper at a Chinese restaurant .75. Motion picture show – Peter the Great – childish - 30¢.

Saturday, Aug 28

Left at 8:00 (Central Time) on bus for Duluth. Enjoyable ride on the whole. Lunch at Grand Marais where I ate day before yesterday. Inquired about the people injured in the auto accident and learned that they were still at the Doctor's house. Our chauffeur said the old lady had lost her sight. I think this a mistake but fear that the younger woman has lost the sight of one eye! This chauffeur was first on the scene and cut away the door with an axe to release them!

A Duluth lawyer got on the bus there and sat by me all the way in. Interesting man. Opinionated. Quite wrong on some botanical matters but had some information of value

In at 5:15. Barber 1.00 (Holland Hotel – Room 505) To station & secured reserv. (Lower – 4⁵⁰) for tomorrow evening, cancelling one previously made for Monday evening. Supper 1.25. Went to the Orpheum to hear a rather fine stock company in "Common Clay."
