Forward

The Author: Jesse Lowe Smith was born in Macon, Illinois, on 23 November 1869, to the Rev. Leonard Francis Smith (1838-1874) and Bridget Ann Lowe Smith (1842-1941). His father's diary for that date: "At 5:30 wife bore me another child, a boy weighing 10 lbs when dressed. Dr. Tobey was the physician..." Jesse's father, Leonard Francis Smith, son of Jesse Smith and his second wife, Sophia Lake Spencer, had married Bridget Ann Lowe, daughter of William Fletcher Lowe and Elsea Aquila, on 10 September 1863. They had six children, Elsie (1864), Kittie Grace (1865-1932), Clarence Bruner (1867-1943), Jesse Lowe, Edith (1873-195?), and Lennie Francis (1874-1976).

Jesse Lowe Smith attended grade school in Macon, Illinois. With a passion for books and nature study, Jesse saw his life as a teacher. He attended the Academy in Benton Harbor, Michigan from 1884-1887, living with his Great Aunt Margaret Crooks. In 1888 he returned to Macon where he taught for three years. Teaching and studying independently as he taught, Jesse, at age 21, qualified for entrance to De Pauw University in September 1891. He completed his education at the University of Chicago from 1892 to 1894.¹ After one year at De Pauw, he returned for one term at Macon, and then, with his mother and sisters, went to Lexington, Illinois where he taught for four years from 1893-1897, followed by five years in Park Ridge, Illinois. In May 1902, Jesse came to Highland Park as principal of the Elm Place School. He was Superintendent of Schools for District 107 at the time of his death on 21 April 1934.²

His diaries reveal Jesse Lowe Smith to be a man of many interests and great influence. He was widely known and respected throughout Illinois as an innovative educator and avid naturalist and in Highland Park as an educational, cultural and civic leader. He inspired the Elm Place School teachers to higher ideals of education and the students to a deeper understanding and appreciation for the world around them. He left a lasting impression on all who knew him in life and continues to inspire many who make his acquaintance through his diaries and his legacy in Highland Park.

Identifications: In his diaries, Jesse frequently refers to members of his family. During his years in Highland Park, Jesse provided a home from his mother and his sister Kittie. They are often referred to in the diaries as M. and K. His brother Clarence Bruner is referred to as Clarence or Clarence B., and Clarence's two sons, Leonard and Clarence, Jr. (Bruner or Junior) are also mentioned. Jesse's sister Edith married Clarence Danforth (Dan, Danforth or Clarence D. in the diaries). His sister Lennie married Arthur Enders, and their children, Robert and Ruth Anne, are mentioned in the diaries.

Transcriber's Notes: Every attempt has been made to provide an accurate transcription of the diary entries with respect to spelling, grammar, and punctuation; therefore incorrect or inconsistent (Mr. Smith spelled the same word in different ways at different times) usage is retained without the use of (sic). When words were added above the line, they have been inserted into the text. When words were inadvertently repeated, the second occurrence of the word has been dropped. Margin notes are indicated as such and are placed following the text that they appeared adjacent to in the diary. When words were illegible, brackets have been supplied enclosing a blank space []. Words that could not be deciphered with certainty have been placed in brackets followed by a question mark [like this?]. Transcriber's notes are indicated by brackets [like this – ed.]. Clippings that were pasted into the diary are described in a transcriber's note, but are not always transcribed.

[On this day, Mr. Smith wrote a letter to Miss Mitchell regarding Audubon Society affairs. His letter was in reply to one received from her. Miss Mitchell's letter and Mr. Smith's reply are transcribed as follows: - ed.]

Jan. 7, 1933.

Dear Mr. Smith,

A happy New Year to you!

Many thanks for the enclosed! I'll return it so you can send it to some one else. My very hearty commendations for it!

For financial reasons only I resigned from the Geographic year before last, and if they put your plan to working, it will just so much more make me want to belong again when the time comes. I know so many members and hear of the doings right along, and being as interested as I am in the Society, I do not feel altogether "out."

My Mother left us on December fourth. My brother and his family living with us makes my immediate problem less than otherwise I have put in application for several jobs, but am still at your beck and call for committees, etc.

And when are you coming to an Audubon meeting? Will you come if we make an all evening session? We need you! Thank you!

Sincerely,
Catharine A. Mitchell

January 12, 1933

My dear Miss Mitchell :

Just to establish a reputation for doing something concrete for the Society, I can report that Mrs. Pattee and I spent one afternoon at the Academy of Sciences during the holidays working on the slides and that I spent another afternoon there at the same task by myself.

I have turned in a fine article for the Bulletin which I secured from Mr. Musselman and other articles by Watson of Athens, Schaefer of Port Byron, Gower of Carbondale and I have three or four "coming".

I don't believe you can get Lyon and others like-minded to spend a whole evening on the affairs of our Society and so I believe it is better to continue to accept the present program, a half loaf being better than no loaf at all. As I look over the minutes of the past meeting, I do not see where I have been particularly needed. I would like to take part in a conference some evening when we would not need to look at the clock. Give me a tip if something of the sort is planned.

Set "A" of the bird slides is ready for circulation. Set "B" needs freshening up and I have given Mr. Bailey a list of ten new slides needed. He promises to have them made up and notify me when they are ready. Then I will go in and see that the set is finally ready for circulation. I plan to start one going in the Fox River Valley, soon. Set "A" visited thirty or more schools in this county last Spring. I can easily get a number of engagements for it here again this year.

If you have a chance, speak of this casually at our meeting next Tuesday evening. I have to give an educational talk, one that has to be built up "from the ground" and I am dodging all evening engagements for the present wherever possible.

Thanks for your comment on the proposal for the Geographic.---I do not think its present program worth the annual charge. I feel more strongly than I betrayed in my "memorandum".

Yours,

Friday, January 13

[Pasted to this page is a newspaper clipping of Everett Millard's obituary. It is transcribed as follows: - ed.]

EVERETT MILLARD DIES HERE TUESDAY
Prominent Chicago Attorney Noted for Devotion To Civic Welfare

Everett Lee Millard, prominent Chicago attorney and Highland Park resident, died on Tuesday at the age of 55 at his home, the "Log House," on Sycamore Place, Highland Park. Death followed an attack of pneumonia.

Mr. Millard was a prime mover in the creation of the parks and playgrounds of this city. His father, the late Samuel M. Millard, was active in the first attempt to found a park system here.

The present park district was organized in 1909 with Mr. Millard's help, although he first became a member of the board in 1915. In 1923 he was elected president, and during his office more than ninety percent of the park area was acquired.

A Founder of Hospital

In 1919 the property now forming the golf course and Sunset Woods playground was purchased, a venture which has proven the wisdom and forethought of its sponsors. The Ravinia Public Beach was donated by Mr. Julius Rosenwald in 1925 at the instigation of Mr. Millard. He was also a founder, a former treasurer and governor of the Highland Park Hospital.

His widow, Elizabeth Boynton Millard, survives. She is the daughter of the late Charles T. Boynton, of Highland Park, former president of the North Shore Gas Company. Three children also survive, as follows: Everett Lee, Jr., of Indianapolis; Elizabeth, who is a student at Columbia University, New York City; and Malcolm, a student at Harvard University, Cambridge, Mass. Mr Millard is also survived by a sister, Mrs. Hugo G. Fisher, of Sycamore Place.

A Local Landmark

Mr. Millard's life was a record of varied activity, and was notable for constant devotion to civic welfare. His father was an early resident of this city, and the "Log House" which he built in 1893 has long been a landmark.

Mr. Millard was graduated from Harvard in 1898, and received his legal training at the Harvard and Northwestern Law Schools, becoming a member of the Illinois bar in 1900.

During the World War he was Chicago secretary of the Belgian Food Relief Commission, and was made Chevalier of the Order of the Crown by Albert, King of the Belgians, in recognition of his services.

His activities in preserving the beauties of nature found wide scope, for he was instrumental in setting aside the Indiana Dunes as a state park, in securing the passage of the Cook County Forest Preserve Act, and legislation against billboards.

Mr. Millard was chairman of former Mayor Dever's recreation committee, and had been president of the Municipal Art Commission of Chicago.

Member of Coucil (sic)

At the time of his death he was president of the Chicago English-Speaking Union, and was a former president of the City Club and of the Harvard Club. In 1931 he was elected to the Harvard University Fund Council.

Mr. Millard was president of the North Shore Gas Company, vice-president of the North Shore Coke and Chemical Company (sic), and an officer and director of several other public utility organizations.

His clubs included the University, Cliff Dwellers, Harvard-Yale-Princeton, Shoreacres, and Chicago Bar Association.

Funeral services will be held this afternoon (Thursday) at 3 o'clock at the "Log House." Rev. H. Duncan Browne, of St. James Episcopal Church, Chicago, will officiate. Burial will be in the Lake Forest Cemetery. The following will act as pallbearers: William A. Baehr, Ralph A. Bard, Donald S. Boynton, Walter E. Egan, Hugo G. Fisher, John H. Harmon, George Lytton, Frederick A. Preston, Wayne Chatfield-Taylor, and Samuel S. Holmes.

Friends are asked to omit flowers.

[On this day, the Friends of Our Native Landscape held a its Full Leaf meeting with an excursion to Quincy, Illinois. A typed itinerary of the weekend events is transcribed as follows: – ed.]

MEETING TO THE FULL LEAF

As indicated in a previous leaflet, the meeting of the Friends of Our Native Landscape to the Full Leaf will be held in Quincy, Ill. June 10th and 11th. The scenic drive to Peoria long the Starved Rock Trail, then to Quincy takes one thru a beautiful countryside. Both historically and scenically Quincy, with interesting picturesque gorges, rolling country and the fathers of waters, affords many points of interest.

The program as planned is as follows:-

1. Transportation: If by auto, leave early Saturday A.M. as the trip is about 300 miles. Alternate routes are by way of Joliet thru Ottawa to Peoria as follows: U.S.66, State Rt.4 or 4A to Joliet, State Rt. 7 to DePue, then State 29 to Peoria, then U.S.24 State Rt.9 to Quincy, which is more scenic, while a slightly shorter one is from Joliet to Chenoa, U.S. Route U.S.66, State Rt.4, then U.S.24 State Rt.8 to Peoria, U.S.24 State Rt.9 to Canton, then U.S. 24 State Rt. 31 to Quincy.

Those having room for one or more “friends” and willing to accommodate them in return for helping out on “gas and oil” – say \$4.50 for one person; \$3.50 for 2 people each, and \$2.50 for 3 people each, should call Whitehall 5458 immediately giving full information, as well as those wishing to obtain a ride.

If by train – one leaves Chicago Friday night 11:45 P.M. arriving Quincy at 6:55 A.M., and returning Sunday 9 P.M. arriving Chicago 7 A.M. – Standard Time.

R.R. Fare – Round Trip - \$9.70; Sleeper – Lower \$5.63; Upper \$4.50.

2. Headquarters will be at the Hotel Quincy where the following rates can be had: Single Room - \$1.75; Double Room - \$2.50; Twin Beds - \$3.25 – all with bath. Reasonable dining room in connection. A good cafeteria is within a short walking distance.

3. At 6:30 Standard Time, the meeting will be held at William Thien’s Spring about two miles north of the city where a fried chicken picnic lunch arranged by Mrs. Leaton Irwin and Mrs. O.G. Mull, co-chairmen, will be served. The boy scouts of Quincy will be on hand for parking and ushering.

Kenneth Sawyer Goodman’s masque will be given and followed by a word of welcome by Mr. Eichenhauer, Editor of the Herald Whig; a bird talk by Mr. T.E. Musselman, and a characteristic message by Mr. Jens Jensen. These talks will be given around a Council Fire.

Sunday morning about 9 A.M. a trip is arranged thru the notable Quincy Parks, presenting lovely views of the Mississippi River, Bluffs and bottom; then to Burton’s Cave and along an interesting gorge which should be explored.

Those returning Sunday should leave around noon, while for those remaining, interesting trips can be arranged.

C.B. Andrews,
Secretary.

Remember – Call Whitehall 5458 – or write C.B. Andrews at 8 East Huron Street:

- 1 – If you have any room – or want a ride;
- 2 – To make hotel reservations whether going by train or auto.

NB. . . .

Mr. Andrews and I met with the Quincy Folk last week-end and we heartily assure you a very enthusiastic reception. Besides you should certainly see the country in and around Quincy. A large local crowd will be on hand for our Masque and Meeting—so let’s come in goodly numbers too. Quincy most cordially invites you—we most emphatically urge you to accept—thus making it imperative for you to attend. We’ll be seein’ you there.

Edison L. Wheeler
Chairman Quincy Meeting to the Full Leaf

Friday, June 16

A fine day. Warmer.

Gen'l teachers' meeting at 9:00. Then conferences. Many of the teachers left town today.

At school nearly all day

Work at home later in day.

Gathered up 16 shovels, property of social service, which I had left at Mr Sleeman's, & returned them to headquarters.

Saturday, June 17

Delightful day

Hoed sweet corn in ~~G.B.~~ V. Ave garden; spaded two places & planted two rows of beans in each. Planted a bed of hemp in N.E. Corner.

Brot soil over from E P. & made bed for lunaria & digitalis seed. Planted row of ageratum plants.

Checked up & OK'd teachers' applications for renewal of certificates.

At Pub Libr for a while. Clarence Davis set out some violets for us there.

Sunday, June 18

Very warm day

We stayed in close but at 7:00 this evening M. E. & I drove to Lake Forest and back.

My climbing American Beauties spent. Paul's Scarlet at its height. Orange red lilies passing their climax.

Syringa days

My late (and very choice) cream white peony still in bloom.

Monday, June 19

Another hot day but the freshness of the breezes tempered it.

I hoed two hours in my garden. Various errands This aft at pub libr a while investigating the skylight, etc

Worked late in my garden. Set out large number of ageratum, snapdragon & cosmos plants.

Soaked most of it with spray.

Tuesday, June 20

Very warm.

Wrote an article about the landscaping for the Press this A M and did various errands.

Left for Chic at 2:00. To Rosenwald Hall at U. of C. to hear Prof Sederholm of Helsingfors lecture on Pre-Cambrian rocks. It was the Div. of Geology of the A.A.A.S, & members of Chic Geog Soc. were invited. – Then to Burton Court on the south side of Midway for dinner & lecture by Prof Taylor which followed. A fine lecture & a fine time.

Met Leighton, Wanless, Behre, Ball, Akers, Bastin, Slocum, Mr & Mrs Davidson (of Oak Park), Weller, Taylor, et. al.

Wednesday, June 21

Very warm until 10:00. Then cool breezes began to dominate.

To Stevens Hotel to register & secure my A A A S badge, & then spent the morning until one at the Art Institute My first general view of the special Exposition exhibit

After lunch went into Exposition grounds to attend a symposium on the age of the earth. Our session began first in south hall of Hall of Science. Then we transferred to the aud of the Ill. bldg.

Afterwards I visited the Gov't building etc. Met by chance Lennie & A & Ruth & S.W. at concert in court of states. Left them there at 6:00 and went to dinner of Bot Sec. at Womans Club. Heard Dufrenoy, Hall, & Appel, all foreigners Fine chat at table with Dr Rumsey, Miss Cliffe, & Miss [et?]

Thursday, June 22

Delightfully cool.

Lennie & party got in a half hour after me last night.

I went down to joint meeting of geographers & Chic Geog. Soc at Field Museum & was there all day. Lunch with Denoyer, Jones, et. al. Met K C. McMurry (Dr Chas McM's son from Mich U.). Miss Baber, Bradley, Colby, et. al.

Came away at 5:30. After Supper to Aud to Symph Con. (Rudolph Ganz, guest conductor) My chief interest was to hear Mrs Agnes Conover play McDowell's [MacDowell – ed.] Concerto No 1. Splendid performance. Geo Jones had a box, Mrs Millard also, & I was with the latter's party after the first half. Met some fine people.

Lennie's party & Dan at our house for the night.

[Pasted to this page is a clipping of the concert program of the Chicago Symphony Orchestra. – ed.]

Friday, June 23

Fine day Warmer.

The Enders group left right after breakfast. Dan & E. drove to Ev. to shop & then Dan went back to Gary.

This aft Harold Schultz came & we drove out for the aft. Visited Mr. Petty, County Supt. on an errand; then ~~north~~ west to Ivanhoe & the Geo Brainard farm to scout over the prairie. "Bull thistle", Liliun Philadelphicum, and others in bloom. We got in at 7:00. Harold ate supper with me & drove back to Ev. where he is student for the summer

Saturday, June 24

Rather warm day

At school most of day. With Hazel I worked on our annual report. This aft Miss Grunewald & I worked at indexing pictures of pupils.

The country in general is very dry. Soaking rains have been followed by a long stretch of clear weather, some of it unusually hot. Ground has baked & cracked open.

Soaked the southeast border beds heavily this evening.

Sunday, June 25

Warm. Somewhat sultry. A few raindrops this A M

I went to church at Dr Tittle's in Ev. Beautiful service. Preached on "The Spiritual Foundation of Peace".

This aft Alden Green called to talk over the scheme for enlisting pupils for a private school.

Raymond Flinn called to go over with me plans for screening the skylights over the charging desk at the Pub. Libr.

Mrs Peter of 990 Illinois Rd Lake Forest called me up about some wild flowers, so I drove up with M & E & spent an hour naming things for them.

Lillian Moore (Anderson, Larry) who taught here in 1912-13 came up with her husband & we had a delightful visit. They live at Oakland, Calif.

Monday, June 26

Very warm. Tempering breezes.

At school much of day. Miss Cramer & Mrs Grunewald & I indexed pictures of children.

Some garden work

This evening I went down to first M E. at Ev. & heard Jane Adams [Addams – ed.] tell experiences of forty years in working for internat'l piece. No rancor, no destructive criticism, but friendly candor and willingness to give respectful consideration to the point of view of the other fellow.

Tuesday, June 27

Record heat 100.2 in Chic.

Very hot day.

Various errands this A.M. after working in my garden for a time. - - To Skokie to take out and release a woodcock some boys brot me. - - A man stopped the traffic on a highway near here to rescue a woodcock & two chicks that were crossing the road. All squatted on the pavement & were lifted off and pushed out of harm's way. - - - To Meyer & Co to try for a job as "waterboy" for Joe Santi - - To H&S. to get spectacle frame repaired.

This aft Miss Grunewald & I worked at indexing pupils' pictures.

Watered my yard until late this evening.

Called on Miss Amelia Nafe to see her ancient rosebushes – her father planted the originals long ago.

Wednesday, June 28

Hot but tempering breezes.

Had my car simonized, etc. today.

Worked at school much of day.

M. E & I drove out as far as Old Mill Road this evening & down to Dundee Road.

Thursday, June 29

Gray sky & tempering winds. At length about 7:00 P.M. a great rainstorm which was desperately needed. Ground cracked & parched. Unwatered lawns looked burned. Now a great relief.

Worked around my place much today. Went out to my milkweed "patch" near Everett & cut away grass, etc., from about them.

At school a while this aft.

Dan came in at 5:30.

Friday, June 30

Cooler this morning after the heavy rains of last night but the breezes lost their freshness during the day & the humidity mounted!

Various errands this A.M. & after lunch I finally reached the exposition grounds by four. – The Mayan Village, Gen'l Motors, Travel & Transport. After supper – the Wings of a Century pageant. Simply great. Appeals to sentiment, emotion."

Then Belgian village – which interested me greatly. The illusion is very good.

Then home.

Saturday, July 1

N. E. A

Warm much of day but after sunset cool breezes

Finished notes copied from "The Autobiography of a Chameleon" and sent it back with a letter today to Mrs Clarence Crittenden Calhoun, Rossdhu, Braemar Forest, Chevy Chase, Md.

This evening I went down to the opening session of the N E.A. at Stevens Hotel. Saw few I knew.

[Inserted at this page is a clipping of a postal rate announcement. It is transcribed as follows: - ed.]

Supplementary
Postal Rate Information

By Act of Congress June 16, 1933, and effective July 1, 1933, the postal rate was restored to two cents an ounce or fraction thereof on first-class matter mailed *for local delivery* at or from the particular Post Office where deposited.

The same Act provides further authority to the President to make such other modifications of Postal Rates as he deems advisable by reason of increase in business, the interests of the public, or the needs of the postal service.

Therefore, in case of doubt as to rate, consult Post Office.

Tuesday, July 18

Warmer but not oppressive.

Busy at odds & ends. Yest. spent an hour in dentist's chair (Hamilton) & a little more than that today.

Sprayed. Treated Mr Chapin's squash & pumpkin vines for stem borer (CS₂, etc). Took M. & E. to Ft Sh. this aft to see drills, etc., in honor of Gen Balbo & his men. We saw the procession at close range. As M. couldn't walk far, she stayed in the machine & E & I saw something of the evolutions. Then we all saw air maneuvers staged by 30 or so U.S planes.

Planted in pots & flats at G B R S – digitalis, Cant. Bells, gaillardia, ampelopsis v. Some mam. Russian sun fl seed outside of plant house.

Wednesday, July 19

Warm day.

Trimmed for a while among my smaller trees. Went to Bahr's nursery to inquire about disease among delphiniums. At Social Welfare promised to advance funds for a "project" on West Deerfield Ave.

At school a while, both A.M. & aft. An hour and a half in dentist's chair.

Cardinals quite vocal the past few days.

Thursday, July 20

Warm. Hot.

Sprayed garden. Calendula, stem & bud trouble. Leaf hopper virus. Delphinium leaves folding back. Blotches.

Correspondence about vacant position

Took 3:34 for Chic. To Albert Agency to consult Miss Smith about the vacancy. Then to Newberry Library where I worked over genealogy matters until 9:00. Found names of Cornelius Low, Sr. & Jr. in tax lists of Northumberland Co. Pa – 1778 & onward.

After 9:00 I spent some time listening to soap box oratory on the side street which the Library fronts. Four large groups & some smaller ones.

Friday, July 21

Heat tempered by breezes this day.

Various interruptions this morning.

This aft I took Edith over to consult Dr Davis at Deerfield

Sunday, August 6

Fine day. Warm.

M. E. & I went to Presb. Church this A M. to hear my friend, Rev. Karl Roth, preach.

Coming home we found Dan & Mrs Ecklund had driven in from Gary.

During the aft E & Dan & Mrs E drove to Grass Lake to see the lotus blooms. Somewhat past their prime now.

Monday, August 7

Threatening. Humid.

Spent an hour with the Ritows at their home in Krenn & D's subdivision Dan & Mrs Ecklund with me.

Started one man at work at Pub. Libr.

After early supper Dan & Mrs E. left for Gary.

M. E. & I drove out to Half Day to see Clarence Davis. He had used our trailer (school) on a trip to Iowa & lost its name plate. This was recovered at Dixon & notice sent me.

Tuesday, August 8

Tempering breezes

Took my worker at the Libr out to woods along Deerfield Ave & left him for 2 hours while he dug up some ground cover for Libr grounds – wild yam, moon seed, carrion flower, bracken, false Sol. Seal, etc.

Conferred with Social Service; with Rafferty, et. al.

M. E. & I had a drive this evening. Brot back some vegetables from Dundee Road.

This evening I drove Clarence D over to D. to have an ex by Dr Davis.

While waiting Mr. H. who was with me drove past Bannockburn & the Ziesing farm. Then out River Road across the Des P. & back. Edith waited at the Doctor's office

[This entry describes August 28th. Mr. Smith inadvertently wrote the August 28 entry on the page for August 11th. - ed.]

Saturday, August 12

Glacier Park

Left for G.P. at 11:45 PM

[Mr. Smith kept notes of this trip and recorded the entries onto 4¼" x 7¼" sheets of blank paper. Holes punched in the left margin of these sheets indicate that they were once contained in a loose-leaf notebook. The notes for August 12 are transcribed as follows: - ed.]

Chicago to Glacier Park.

Aug 12.

Left at 11:45 P.M. from Union Station. Had a tourist lower. Next day by paying 90 cents additional, I occupied it as a section.

Sunday, August 13

Enroute for Glacier Park

[Mr. Smith's travel notes for August 13 are transcribed as follows: - ed.]

Aug 13. - Saturday

Along upper Mississippi as I dressed this A.M. Country rather dry. In areas corn fields looked parched.

A new dam & lock just above junction with St. Croix.

The stop at St Paul not long because we were late. Did not make up our time until late in the day. Much corn cutting for silos. Plenty of Lakes. Over in Dakota at Wahpeton a while. Then at Moorhead, Minn. Dry. Bleak thereabouts. Memories of Dr Lord, Dr Goode, Mrs Kimball, et. al.

In the wheat country. Seemed to be lots of oats

Threshing machines nearly every two or three miles. The golden spume in the air.

At Minot. Cooler. Fresh. A beautiful sunset with threshers hard at work with little time to enjoy the view.

Smell of sage brush in the night.

The great plateau plains. Horse country and cattle. The Milk River. Cottonwoods & ranch houses and more cottonwoods. And shacks.

Havre. Mt groups on plain S & W of Havre. Flocks of quail. Now & then a combine

Ft Browning & the Indian boys. The gulches sunk in the rolling upland.

Glacier Park at 12:15 Village more built up than of yore.

Hotel grounds & walks bordered with huge delphiniums & various other plants – pansies, petunias, etc

Assigned room 134. Hotel not half occupied.

Long & refreshing sleep all aft. Visited Mike's Place after supper

Mike, himself, in the office of a greatly enlarged institution. Nice chat with him. Frank away at Cut Bank. [Mike Shannon, guide. (See July 18, 1912, August 23, 1915, and October 8, 1922 entries. – ed.)]

Poker game in room where drinks were served. Cafe. Dance Hall. Mike had to cash a check and he produced a cigar box with silver dollars. Paper money not popular.

Indians gave their customary show this evening at the hotel. One of them was "Theodore" oldest son of old Last-star, both of whom I met while in Loring's party 10 or 12 years ago. Theodore now a great heavy fellow, quite content to sit in a group, dance a little, & share the contributions of the tourists.

Monday, August 14

Glacier Park

[Mr. Smith's travel notes for August 14 are transcribed as follows: - ed.]

Monday, Aug 14.

Took 8:30 bus from Glacier Hotel to Many Glacier. Sat with a Mr & Mrs Wright of Milwaukee & their daughter & small son & talked with Mrs W. about people we know – D.C Watson, Lew Sarett, et. al.

The new road approaching St Marys avoids entirely the sharp gorge and wall drive formerly followed along Divide Creek, & comes into St M by easy loops & curves

Room 137 at Many Glacier. Found surroundings at Lake much dolled up but still beautiful.

Sherburne Lake, the dammed up successor of Sherburne Lakes showed piles of drift material & the scars made by man. Two forestation camps in valley, one of Indian boys from Browning & one of NY. City boys.

Wandered about in woods near the hotel in the aft. In the evening attended the lecture by the ranger naturalist. Showed some slides & talked about the history of the mountains.

Cretaceous fossils in the lowest strata here & one celled life in the upper strata showing the upheaval here. The c.f. belong to a greatly younger period & should be uppermost.

Tuesday, August 15

Glacier Park

At Many Glacier Hotel.

[Mr. Smith's travel notes for August 15 are transcribed as follows: - ed.]

Tuesday

Aug 15

Wrote two letters and made some notes. Then at ten off on a hike for Ptarmigan Falls. Overtook Mrs – Chaffe & her son Bob, a U of C. student, etc. Mrs Chaffee on staff of Iowa State. Knows Glencoe &

Kenilworth well – Mrs Welch & Mrs Gaidzik, Mrs Holmes, Gaar Williams' people, et. al. Nice visit. Left them at Ptarm. Falls & walked back, getting in in time for 1:30 lunch. "Service berry" in fruit. A few belated chimaphila.

After lunch took a continuous launch ride up S.C. Lake & Josephine (Walked over portage between two lakes) and return. Visited with the Ranger Naturalist, Mr Thomas on way back. Talked about Ranger Frank Stevenson & his family, about Standley's Check List, animal life in the Park.

Have been working at intervals these days on Rugg's The Great Technology.

Walked down Swift Current Valley a ways after dinner. Then listened to a talk by naturalist on animal life in Park

Wrote friendly letter to Ranger Stevenson

The mountain lion killers of the past years did their work so well that only a very few survive. Lynx are rare, too, and this shows in the greatly increased population of smaller rodents.

Wednesday, August 16 Glacier Park

At G to the Sun C.

St Marys

[Mr. Smith's travel notes for August 16 are transcribed as follows: - ed.]

Wednesday

Aug 16, 1933

Left Many G. at 8:30 for St Marys. Had a fine visit with the chauffeur who knew the Stevensons and the Shannons.

Mr Stevenson's little cabin we passed at Sherburne Lake. His daughter "Haydi" – about 19 or 20 – at present one of the pastry staff at M.G. Able to get little H-S. instruction at Monroe, Mont., last winter. Eager for an ed. Father not in sympathy, strange to say. She presses flowers well. Had some for sale at M.G.

Frank (Mike) Shannon sadly afflicted with goiter. - - Rosemary off of balance. - - They do not live together. - - Old Mrs Shannon has had a "stroke" Convalescing

At St Marys we waited an hour & a half for a boat. The ride to Going-to-the-Sun chalets was as lovely and inspiring as usual. Got in shortly before twelve.

Assigned to room H3 which looks down off the crag into the lake and straight east to the Narrows. Beautiful view. Loafed much of aft. A thunder storm over Goat & Red Eagle Mts & nice rain about the chalets late aft.

Walked with six ladies to Baring Falls after supper.

Mr. McLaughlin who has been acting as ranger naturalist gave up the work two days. Gov't appropriation cut off! He is on the botany staff of N.W. and says he lives at Ravinia

Thursday, August 17 Glacier Park

At Going to the Sun Camp.

[Mr. Smith's travel notes for August 17 are transcribed as follows: - ed.]

Thursday

Aug 17, 1933

Going-to-the-Sun

A warm day – for the mountains.

Set off for a walk at 8:00 A.M. for the meadows below Sexton Glacier. Slow climb up the path along which I once went with Dr Wynn's party. I went only about half as far this time.

Met two men up the valley & walked back with them. Tried to find mountain goat on the ledges. The men had preceded me a half hour & had seen a few mountain sheep

On the way down I collected a bouquet of adenocaulon bicolor and slipped it into a much larger bouquet of bedstraw. At the chalet the store room man packed it for me & I started it by mail for H.P.

This aft slept & read & wrote some notes. At five I found my way into a sunken garden within five minutes of my room. Through the trees one could see the auto road nearly a hundred feet above. Here it was delightfully cool. A thin little brook ran through the meadow. Heavy planting of alders, mountain maple, red osier, amelanchier, snowberry, lonicera, mountain ash, elder berry, willow, thimble berry, huckleberry.

This evening perched on a rock jutting out over the lake I watched the sun go down and waited until dusk deepened

Friday, August 18

Glacier Park

At Going-to-the-Sun Camp.

[Mr. Smith's travel notes for August 18 are transcribed as follows: - ed.]

Friday, Aug 18, 1933

Had intended to leave this morning but decided last evening that it would be cooler & quieter here than at L. McD, so stayed on.

This morning walked up to Falls of St Mary's, about 2½ miles. Beautiful. Cool spray. Watched a man try to catch fish. Botanized. On the way back just before noon, the lake was of the deepest blue green.

Loafed this aft. High winds came up and blew all night. Chatted with a Cincinnati group this evening – Man & wife & grown son. Had met them on trail to St Mary's.

Before dusk I visited with a Dr. James of Kalispel who drove into the auto park with his house auto.

Saturday, August 19

Glacier Park

L. McDonald

[Mr. Smith's travel notes for August 19 are transcribed as follows: - ed.]

Saturday – Aug 19, 1933

From G-to-the S – to L. McD.

Wind still strong at first, gradually dying down. Gray & sun alternating.

Left Going-to-the-Sun at 8:30 for the magnificent ride over Logan Pass – only opened up a little more than a month ago. It was very interesting to find great stretches of the old trail still there and usually far higher up than the new trail. A broad highway very well designed. We were given 20 min. halt at the top of the Pass & while there talked with a chemistry teacher from Chic who was on our field trip to the Kankakee area in June. Today he was in charge of the C.B. & Q party. Mr H.L. Hauman.

Much may be said in praise of the road down in the valley of McDonald Creek. Like in a fine park. Trees showed to great advantage. Road follows the edge of the creek right past the Falls into L McD.

Hotel seems well kept. J.E. Lewis sold it two years ago but left all the specimens & it looks as it did 10 years ago.

A great nap this aft. Read a lot. Wrote a little.
Ranger naturalist talked a little this evening about wild life, birds, etc.
Three bears fed at the garbage this evening. A doe & her fawn strayed about on the slope before the hotel.

Sunday, August 20 Glacier Park
L. McDonald

[Mr. Smith's travel notes for August 20 are transcribed as follows: - ed.]

Sunday, Aug 20, 1933
At Lake McDonald
Rather cool. Overcast sky frequent.
Sent another package of adenocaulon bicolor off by mail this A.M
Then I walked up the auto road along McDonald Creek Hung around by lower McD Falls, then to the upper Falls & foot bridge Visited with some friendly strangers. Located a water ouzel's nest but it was in too deep a recess to be seen.
Walked across bridge & followed west bank down stream to the footbridge near head of L. McD & then back to the hotel.
Rested & worked over my notes this aft. Walked a short distance along auto road leading to Belton.
Hotel food almost perfect. Too alluring.

Monday, August 21 Glacier Park
L. McDonald to Glacier Hotel.

Tuesday, August 22
Enroute from Glacier Park to Chicago.

Wednesday, August 23
Reached Chic at 9:45 & caught 10:01 for home. Glad to be back
Dug into my mail, etc. Bruner came in from New York City at 2:00.

Thursday, August 24
Warm day. Cooling breezes
I unwrapped the two cartons of specimens I had sent on by mail from Glacier P & took three detail photographs.
Then we had early lunch & Bruner & I went down to the Expo. While there B phoned a friend who invited him to dinner & so we separated just before six.
I ate dinner in the Chinese restaurant. Visited the Jap. pavilions & later had a glass of iced tea & sandwich in Jap. tea room. - - Spent a delightful half hour in Chinese Theater. Same in Indian village Then into the temple of Jehol. Vincent Bendix's temple. A splendid replica
[The Golden Temple of Jehol was a replica of the Chinese Lama temple, Potala of Jehol. It was donated to the Exposition by inventor and industrialist, Vincent Bendix. - ed.]

Friday, August 25
Warm day. Cooling breezes.

Bruner & I went in on 10:32 & met his friend, James Bergen, at Art Inst. for lunch. Jas is on duty at a music booth in the Expo & left us before one. Then Bruner & I had a delightful tour of the galleries. We left at 3:30 & took a taxi for R.R. Donnelly's for an hour or so, seeing the memorial library & fine edition of books.

Then home by six to find our house guests there. Lennie & Ruth got in before noon; Clarence came in by three with Mrs Hostetter & Miss Celia

Saturday, August 26

Warm but cool breezes latter part of day.

Various business items this A.M. Checked up at Social Service the tools my men had used. Found that my project for school frontage, Sheridan Road, had been approved, and that of the Pub. Libr. for finishing history room also.

This aft Mrs Hostetter Miss Celia (Stroh), Lennie, Ruth & I went to the Expo – Electric to La Salle; taxi to 12th; used 2 chairs for one hour – Illinois Bldg & Hall of Science. Then tea at Japan Tea Room; Bus to Trav. & Transport; went through Royal Scot & Burlington, etc; Dinner at Century Grill; went to 8:00 O'clock presentation of Wings of the C. Bus to 23rd. Walked across to Island; Bus to 12th. Narrow gauge to Monroe, etc. 12:30.

Sunday, August 27

Mild. Gray. Few rain drops late.

When we got home last night, Dan had come in sick, Mr Steiner had brought him. Pleurisy.

Bruner had spent the day with friends & got in when we did.

Dan better today. I was bothered with a bad cold

This aft we drove to Lake Forest, Lake Bluff, etc

At home this evening

Monday, August 28

See 223 [August 11,1933 entry. – ed.]

Beautiful day Cool

I drove to the city at 8:30 with Mrs Hostetter, Miss Celia & Bruner Parked at Grant Park. Spent until 12:30 at Art Inst. Then we went to Fields for lunch. Taxi to our parking place, then home. Our trip down was very slow, the last mile. On our way back we had open way.

Mrs H's old-time friend, Aug Ziesing, of Glencoe came to call on her at 5:00.

See page 223. [August 11,1933 entry. – ed.]

[Mr. Smith inadvertently wrote the entry for August 28 on page 223 (August 11) of his diary. – ed.]

Tuesday, August 29

Fine day Cool

Clarence & Bruner & Mrs H. & Celia drove away for Decatur this A.M

I did various errands & was otherwise at ease today.

This evening I went with Dan to Dr Davis, who further examined him & will prepare a report.

Wednesday, August 30

Fine day

This A.M. my "project" for landscaping our Sheridan Road frontage began with 10 workers. Some took down 3 dead trees. The others excavated a portion of parkway & prepared a foundation for surfacing with screenings, etc This took most of my time all day.

This evening M., E, & Dan & I drove to Everett & back

Thursday, August 31

Fine day.

Most of this spent with the men on the "project".

Four of the men were to work but two days and I had to pay them off this evening – 3⁵⁰ a day, a 7 hr. day!

M. E. Dan & I drove down to Hubbard Woods this evening to get two copies of Anita Willetts-Burnham's new book, "Round the World on a Penny". – Got them of Mrs B. herself at her "log house" on Tower Road! One copy for the Pub. Libr.

Friday, September 1

A fine day. Warm but not oppressive. Quite dry

I had eleven men at work today on Shr. Rd project Time allotted to each with one exception expired today and Hazel made out the payroll & signed the checks.

We had never had finer tomatoes. Edith still prefers the Marglobe but the Break o' Day rivals it in appearance and seems to be more heavily fruited.

Saturday, September 2

Warmer. Somewhat sultry. Had been a few raindrops in the night.

Various errands this A.M. At one I drove Dan over to see Dr Davis. His report encouraging. Gave him a prescription

Then I went to Chic & down to Burton Court of the U. of C. to a dinner & program of the League for Independent Action & other organizations. Paul Douglas presided. Addresses by Oswald Garrison Villard, Mayor Mahoney of St Paul, a state official of No Dakota, and ex Cong. Amley of Wisconsin – Visited at the table with Mr & Mrs Rae Logan of Winnetka, Mrs Frances Dummer, Mrs Crosthwaite (English), Mr Berglund (Detroit educator & politician), Mr Ralph Blount, Dr & Mrs Bacon, et. al.

Sunday, September 3

Sultry.

We all stayed in today, although I was tempted to go down to the U. of C. and listen in at the conference of the groups trying to launch a new party. I called on the Chapins a while this evening.

Monday, September 4

Labor Day.

Sultry. As evening came on clouds appeared. Lightning on horizon. Some rain.

I stayed at home all day. Worked on my genealogy projects and read from Kallen's Individualism, An Amer. Way of Life

After supper M. E. Dan & I drove out to Werhane's for some vegetables.

I kept a sprinkler going about all day.

Tuesday, September 5

Another sultry day

I had eleven men at work on Sh Rd parkway today.

Spent a lot of time this aft & evening on my genealogy chart.

After supper M. E. Dan & I drove down past the Forestry Camp in the Skokie west of Winnetka & back.

After eight Mrs Bernard who had been tutoring Lucille Marks called to confer with me.

Miss Stark also called to talk over Kg plans.
The H.S. enrolled Freshmen today.

Wednesday, September 6

Still another but with cooling breezes.
My group continued their work on Sher. Road project.
I took M to the Everett's for a call late this aft. which she much appreciated. We chatted with Mrs Danley on way back
Finished typing chart of Low genealogy late this evening.

Thursday, September 7

Another sultry, dry day with redeeming breezes.
Three workemen on the project.
Lunch with Mr Jensen at the Green Tea Pot.
I went to Newberry Library at 3:00 4:00 this aft Left there at 6:00 & had supper in the loop.
Then to the Expo. Dairy & Agric Bldg; Social Science; House of Magic in Elec. Bldg. Home
Heard bad news from Miss Kennedy. Injured in an auto accident on Monday – in a hospital in Connecticut.

Friday, September 8

Another. The sixth sultry day in succession.
Had two men all day, one a half day, on Sher Rd project.
At school most of day Misses Dorsch & Cramer & Grunewald came in
Had our chairs in our backyard this evening. Dan has been sitting in the yard as much as he can these days, & M. and the rest of us are acquiring his habit.

Saturday, September 9

Cooling breezes mitigated the heat somewhat.
At school most of day. Met all the teachers at 2:00. Mrs Taylor to represent Miss Kennedy for the present. Very pleasant reunion.
Dan & I had an interview with Dr Davis this aft. He OK's Dan's going to work Monday.
M. E. Dan & I drove out to Half Day, south & back to Deerfield

Sunday, September 10

Gray. Cooler. A sprinkle late aft
M. & I to Presb Church
Quite aft. except some phone calls & one visit.
At 4:30 I went to school to show about Mrs Cue & some friends Met some of the teachers there.
M. E. Dan & I took a short drive at 6:30.

Monday, September 11

First day of school.
Cool & gray at the outset and at 11:00 a heavy shower. Refreshing
School started off well today. Miss Kennedy not present. She is in a hospital at Middletown, Conn
(P. 250) [Mr. Smith's reference is to page 250 of his diary. That page is Thursday, September 7, 1933. – ed.]
Larger enrolment than this time last year. Number of new pupils.
Teachers' meeting this aft.
Board meeting this evening. All present. Fine meeting.

Tuesday, September 12

Another cool day Gray at times.

Morning ex – 10:00 & 11:00 at G.B.R.S.

Much occupied.

Miss Parson had to go to the hospital with an infection in the leg. Mrs Weaver, sub.

Mary Noerenberg helped Miss Meyers write today. Miss M. has a badly strained wrist.

I was the guest of Mr & Mrs Ritow & Ira at their home in the K. & D. subd. near Ft Sheridan. Fine time. Mr. R. is Princ of Goethe School. Born in Moscow.

Wednesday, September 13

A Fall day Rainy & cool.

I taught three periods in Miss Parson's room.

Various duties.

I drove about, late this aft, with Miss McDaniel & her friend, Mrs Clapp, of Ev, looking at houses with a view of renting them.

I had dinner with Mrs Millard this evening. She is to close the house for the winter.

Thursday, September 14

A cool day. Rainy or drizzly. Had furnace going all day.

Spent much time getting ready for vegetable & flower show.

Library Board this evening. Absent Gallagher & Beardsley & Howes

Friday, September 15

Rainy. Cool.

Clarence & Bruner drove in this aft. After supper we drove out to Dr Davis' office for some tablets for me & an astringent for Clarence.

Flower, fruit & vegetable exhibit today.

I spent much of my time in the exhibit, showing children through, etc.

Saturday, September 16

H.P. to Benton Harbor

Clarence, Bruner & I set out in my car at 10:00.

After a ten minute stop at Lincoln Park, I could not start my car. I went for a garage man & two policeman fixed up a temporary cable for the battery (the cable had been eaten through), & after a few minutes in the garage my car was OK. Went down on La Salle (crowded in the loop) & over on Jackson (also crowded) to Mich Ave where we had free driving At Gary at two. Ate lunch at restaurant. Nice visit with Dan & his friends at the store. Bo't hat, two ties & a collar - - Pushed on to B.H. Had been heavy rains along the way. Fine. Cool. At B.H. by 5:00.

Sunday, September 17

Fine day Clear

All of us – Clarence, Bruner, Lennie, Arthur & Ruth had a nice visit with Eva & Alfred at their home for a while this morning.

After early dinner C., B, & I set out for home. Fine trip. Stopped at the Wilsons but found no one at home.

Were hardly bothered by blocking autos on the way. Only three congested places. Took 5 hours to come home.

Meter read 123 miles.

M. E. & Dan came to the evening performance.

Statistics.

Play first given in 1912. An afternoon performance. Given every year since except 1917. 1912 – 1918 afternoon performances only. 1919 to date both aft & evening.

Worried over the C.W.A affair but greatly cheered today when our men got their pay checks for last week. I now have 13 men on my pay roll.

[In her book, *A History of Elm Place School and Green Bay Road School* (1946), Etta Grunewald described the Christmas celebrations at the two schools. —ed.]

“One of the great traditions of the school is the Christmas Play. It was written by Mr. Smith for eighth grade pupils and given under his supervision from 1913 or 1914 until his death. It was based upon Washington Irving’s *Sketch Book* and *Bracebridge Hall*. It came to be known as “Christmas in Merrie England.” For thirty years this performance was an unusual Christmas event, it was discontinued in the early 1940’s. It was a source of education and pleasure to children and they looked forward to participation in it. It gave them opportunity to use talent otherwise undeveloped or unsuspected. It was spectacular and beautiful. There was a rollicksome gayety about it such as tenants on a squire’s estate in medieval England might have shown at a festival season when barriers of birth and breeding were let down and spontaneity was allowed. There was a role for every member of the class, an outlet for ingenuity in any part. The old English customs of the yule-log, the boar’s head, the plum pudding, the Christmas greens, the carols sung by visiting waits, have become a heritage. They took on new significance as children rehearsed their parts through three weeks of preparation.

A less widely known custom has been the kindergarten Christmas party, held yearly from 1915 or 1916 until 1942. It was held in the kindergarten room where children and their parents participated in it. There was a Christmas tree; carol singing and other features of a program were presented. The children gave their parents the gifts they had made for them at school. There was wholesomeness, sweetness, and simplicity in this party for little children at this season of the year. At Green Bay Road School children gathered for Christmas festivities and carol singing; in the school rooms, throughout the grades there were Christmas trees with groups of children around them.

On the last morning of school before the Christmas holidays the children gathered in the auditorium for a more sacred service. Their Christmas gayety having found its outlet, they now were ready to observe the deeper meaning of Christmas. Beautifully colored lantern slides of the Nativity were thrown on the screen, while from here and there in the audience children burst forth into singing of the old Christmas carols. Mr. Smith told the Bible story of the birth of Christ, and the Magnificat was recited by an upper grade pupil.”

Friday, December 22

A fine day. Frost leaving the ground.

The 1 – 3’s gave a delightful program at G.B R.S at 10:00 this A M

All of us met in the Aud at 2:00 for our carols and I told the story of the Christ Child as usual, using the colored slides of the Presb Ch.

M & I have received a great number of Christmas cards.

We had 3 Christmas trees at E.P. & 3 at E.P. One of these we gave to the North Ave M E. Church & the five janitors each took one.

Saturday, December 23

Fine day. Very mild. Heavy fog this evening

This A M. I drove to Waukegan with Dan and got the paychecks for 11 men who have been with me now four weeks & this aft & evening I distributed them. I found on file at Wauk. the official approval of the new Library project & that of Elm Place School, so much that I have already done is now authorized!

Spent considerable time considering a new project for the Library.

Clarence Smith came in this evening at 9:00 from Decatur.

Sunday, December 24

M & I to church this A M. During church came a quick drop in temp & a cold wind prevailed the rest of the day with a steady descending temp.

Monday, December 25 0°

At zero this A.M. Very chill. During day temp came up 10 or 12° degrees and a dry snow fall of a scant inch followed.

I scurried around & with Mr Murray's help supervised the flooding of the skating "rink" at Elm Place. Hunted up 3 of my C.W.A. men & used them in 3 hr shifts from 9:30 to 6:30. Snow fall at 5:30 made it desirable to cease spraying.

Tuesday, December 26 Snow - - and subzero.

6 inches of snow fell during the night – dry snow - & the thermometer stood at 9° above at 7:00 A M. Grew colder during the day and now is 9° below at 10:00 P.M.

Spent a lot of time today about the skating rink & library problems. This aft I had one crew of four men clearing off snow, followed by another group of three who cleared everything off at length & after 8:00 P.M. began sprinkling. I left them at 9:10 P.M – they to quit at ten.

Wednesday, December 27 15° below

15° below at 7:00 A M Slowly rising temp to 5° above. Clouding over

Saturday, December 30

27° above at 7:00 A M & milder during day. Snow melting. Ice pond had to be abandoned. Slippery roads.

Went to Wauk with Axt, Theobald, Hall, Walker & we threshed over C.W.A. matters in Mr Denney's office. My accounts seem to be approved. I left to come home by the trolley in time to meet Edith & Dan at the station. We went in on the 1:30 together. Dan took the South Shore for Gary while E & I went to Orchestra Hall to hear the child pianist, Ruth Slenczynski give a remarkable performance. Home at 5:15. Margaret Riddle stayed with M in our absence.

This evening I drove over to Deerfield to get some more tablets for M. from Dr D.

[Ruth Slenczynski (b. 1925) was born in Sacramento, California. A child prodigy, she performed her debut in Berlin at age six. She "retired" at age fifteen, but resumed her concert career in 1954. She was Artist-in-Residence at Southern Illinois University from 1964 to 1987. – ed.]

Sunday, December 31

The end of a memorable year.

Gray. Foggy. Mild. Snow almost vanished. My skating rink a sheet of water.

We stayed at home this A M

M. E. & I called on the Chapins at 5:00 and spent a pleasant half hour or so.

I took a brief tramp this aft. Down Park Ave to inspect the new roadway that is building, and around beach & to top in Central Park
