## Robert Kurson — *Rocket Men: The Daring Odyssey of Apollo 8 and the Astronauts Who Made Man's First Journey to the Moon*

Bestselling author Robert Kurson discusses his new book, the story of Apollo 8 and the astronauts who took on the near-impossible challenge of mankind's first mission to the moon. The story has it all: an existential enemy (the Soviets); a race against time; epic danger; close calls; a stunning and unexpected Christmas Eve broadcast; a single photograph, Earthrise, that remains perhaps the most famous ever taken; a story of three heroic wives; and an ending powerful enough to unite a divided nation at the end of one of its most terrible years.

Books will be for sale and the event will conclude with a book signing.
