Preheat oven to 350°.
Pulse 10 ounces of undrained, flaked tuna in a food processor to chop as finely as possible. If you don’t have a food processor, flake thoroughly with a fork and fingers.
In a mixing bowl, combine tuna, 1 egg (beaten), and 1/2 cup whole wheat flour until dough forms. If the dough is too dry, add up to 1/3 cup water. If it’s is too wet or sticky, add a bit more flour. The dough should be tacky but not sticky.
Roll dough on a floured surface until about 1/4-inch thick. Use a cookie cutter in the shape of your choice to create your treats.
Place treats on a parchment-lined baking sheet and bake at 350° for about 20 minutes. When they’re slightly browned and crunchy, they’re done.
Allow to cool before serving.
Store in an airtight container in the refrigerator for up to 2 weeks.

Please note: Once the treats are baked, your cat will be meowing for more. Please be aware of your cat’s dietary needs and concerns. Avoid feeding these treats if there are any concerns about allergies, etc. Avoid feeding treats in excess to keep their tummies happy.
